EDUCATION

Indian Institute of Technology, Guwahati

Guwahati, India

B.Tech in Computer Science and Engineering (CGPA: 9.02/10)

Jul 2019 - May 2023

B.Tech Minor in Product Design (CGPA: 9.40/10)

Jul 2020 - May 2023

EXPERIENCE

Sprinklr India Pvt. Limited

Jul 2023 - Present

Product Engineer (Backend)

- Utilized **Java**, **MongoDB**, and **Elasticsearch** in various projects, driving improvements in **Leave Management** and **Community** modules.
- Leave Management Module Integration:** Achieved seamless integration of a partner's leave management system using **JWT** for secure authentication and **REST** APIs for efficient data synchronization, facilitating smooth leave applications and updates across both platforms.
- Community Forum Migration:** Migrated client's community forum page with around **10,000** active users to our server while ensuring data security, integrity and minimal downtime.
- Mitigated critical **security vulnerabilities**, incl. **XSS** (Cross-Site Scripting), **DDoS** attacks, sensitive metadata exposure in community module, thereby consolidating resiliency & data integrity.

Sprinklr India Pvt. Limited

May 2022 - Jul 2022

Product Engineering Intern (Backend)

- Developed chrome extension for managing and **classifying** emails received on user's Gmail mail account.
- Used **Java** to implement backend server and corresponding API calls alongwith **MongoDB** for storage.
- Developed ML model to classify emails into different categories such as spam, direct emails and meet emails.

PROJECTS

Email Alerts on Whatsapp

Jun 2021

Personal Project

git.io/Jcbq3

- Developed a **Twilio** workflow which fetches recent emails from your inbox and sends it directly to your whatsapp number when queried.
- Used **IMAP** protocol with **Javascript** to fetch emails and Twilio Sandbox environment to run it.

Graph Algorithm Visualiser

May 2021 - Jun 2021

Group Project

git.io/JsSSe

- Developed a **ReactJS** based interactive web application to visualise graph algorithms on custom graphs.
- Supports creation of custom graphs by adding vertices and edges with mouse clicks or text, visualisation of DFS, BFS, Single Source Shortest Path and MST.

ACHIEVEMENTS

Codeforces (Maximum Rating: 1928, Candidate Master)

codeforces.com/profile/picnic_1209

- Codeforces Round 728 (Div 2): Secured **Global rank 72** among 15804 participants.
- Codeforces Round 732 (Div 2): Secured **Global rank 100** among 10831 participants.

OPJEMS Scholarship: Amongst **top 100** students who received scholarship across 23 IITs and NITs.

2019

KVPY: Awarded with national research fellowship by securing **All India Rank 757** in **SA** Stream

2017

Ethos IITG Hackathon: Secured **1st** position in cyber-security path by developing dark web search engine.

TECHNICAL SKILLS

Languages: Java, C/C++, Python, Groovy, JavaScript, HTML/CSS, Swift

Database Management: MongoDB, Elasticsearch, MySQL

Frameworks: Spring Boot, React

Misc: Git, Docker, Kubernetes, GraphQL, Painless, VS Code, Sublime Text, Linux,

KEY COURSES TAKEN

Computer Science: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Organization and Architecture, Hierarchical Memory Algorithms, High Performance Computing, Formal Languages and Automata Theory.

Mathematics: Probability & Random Processes, Game Theory and Economics, Number Theory and Algebra, Linear Algebra.
