Berhampur, India

De Paul school

Council For The Indian School Certificate - ICSE **Percentage - 86%**

06/2009 – 07/2021

Berhampur, India

COURSEWORK / SKILLS

- Java
- Python
- Javascript
- OOPS Concept
- Web Development
- full Stack Development
- MongoDB
- Firebase
- AWS

PROJECTS

Subhmoharat | [firebase and mern stack](#)

- It is a event planner website Developed a full-stack web application for an event planning service that helps users organize and manage different types of parties and celebrations such as weddings, birthdays, corporate events, and social gatherings. The platform allows users to explore event services, view packages, and connect with planners for seamless event organization.
- Built user interaction features such as event inquiries, booking requests, and contact forms
- Implemented event listing and service pages for various party and celebration categories.
- <https://subhmoharat.com/>

Authentication website | [Backend / Full Stack Developer](#)

- Developed a secure user authentication system using Node.js, Express, and MongoDB to handle user registration, login, and session management. Implemented JWT-based authentication and password hashing to ensure secure access to protected resources and improve application security. **here i have used as a full stack developer and its a major project un codveda internship.**
- Built RESTful APIs for user registration and login using Express.js.
- Secured sensitive routes using middleware-based authorization..

INTERNSHIP

Cybersecurity Intern – TPSODL

intern

- **intern** Acquired hands-on knowledge of network and information security principles, including threat analysis and prevention techniques. Gained exposure to security tools and practices for monitoring, vulnerability assessment, and risk mitigation.

Java Development Intern – Manngaler

intern

- **intern** Gained hands-on experience in core Java programming, including object-oriented concepts like classes, inheritance, and polymorphism. Developed basic applications and improved problem-solving skills using Java. Learned debugging techniques and best coding practices.

Full Stack Developer Intern – CodeVeda

intern

- **intern** Gained hands-on experience in front-end and back-end development. Worked with technologies like HTML, CSS, JavaScript, and basic backend frameworks. Built and tested dynamic web applications, improving understanding of full stack architecture.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL, NoSQL

Developer Tools: VS Code, Android Studio, IntelliJ Idea Ultimate

Technologies/Frameworks: GitHub, ReactJS, NodeJS, ExpressJS, Mongo, Flutter

EXTRACURRICULAR

Ncc 

04/2023 – 02/2026

Cadet

Berhampur

- A Cadet **and responsibilities carried out.**
- Participated in military-style training including drill, physical fitness, and leadership exercises.
- Developed strong discipline, teamwork, and time management skills.
